WHAT WILL I LEARN ON THIS COURSE?

Learners will:

1. Demonstrate improved flexibility, posture, strength, and balance safely with at least 3 yoga postures.
2. Participate in at least 2 techniques that develop mindfulness and a relaxed inner awareness
3. Use breath awareness and breathing techniques in your practice and cool down

*Note that each learner will be set specific targets based on the above and their individual starting point.

There are only a limited amount of yoga postures and breathing techniques, so although you may have done many of them before, especially if you are a returning learner, there is no final or correct level. You can always keep repeating these, going further and deeper into them and holding for longer as you progress and when your body feels ready.
